Support for Residents During CoViD-19

Dear Residents,

These are unprecedented times and as responsible residential property owners and managers, we want to support our residents with important information and resources.

We want to make sure residents are aware of measures the federal government has put in place to support residents who may be suffering financial hardship related to job loss, additional burdens caring for family, or illness due to COVID-19.

In addition, we wanted to let you know that we have stopped the collection of rental increases and will not issue any further rental increases during this period of crisis, commencing with the April rent payment.

Our top priority is to protect the health and safety of our residents and employees, and to continue to provide essential housing services in a healthy and safe manner. Alongside a number of like-minded rental companies, we are in contact with all levels of government and will continue to work with them to identify additional initiatives to further support our residents.

We will continue to monitor the situation and will communicate updates to our residents as the situation progresses. In the meantime, we urge you to follow the guidance of public health officials in the coming days and weeks.

Stay well and stay safe.
